USAID GLOBAL HEALTH SUPPLY CHAIN PROGRAM

TECHNICAL ASSISTANCE, NATIONAL SUPPLY CHAIN ASSESSMENT TASK ORDER

NSCA 2.0.1 Toolkit Update

The NSCA toolkit has been updated to address minor bugs and enhance data quality for certain questions in the CMM questionnaire. The NSCA Toolkit is also now available in French. You can download the full NSCA 2.0.1 toolkit at:

[NSCA Toolkit](#)

If you prefer to download the individual files, the following files are affected by the update:

-Implementer Training Package (Only English version affected)

-CMM Master Questionnaire

-CMM Questionnaire for All Levels

-CMM SurveyCTO Code

-Implementation Guide

-Sampling Template

-CMM Survey Analysis Template

-KPI Non-Central Analysis Template

Updates in the Toolkit:

-Full toolkit now available in French (can be downloaded from the link above)

-New English language Implementer Training Package.

-Inclusion of a RACI & SWOT Analysis exercise in the supply chain mapping workshop, as part of the Implementation Guide

-Sampling template upgraded to accommodate 8,000 facilities in the sampling frame

-Minor revisions to select CMM questions to enhance comprehension and improve data quality. Specifically, LM-201, LM-202, LM-203, LM-204, LM-205, LM-207, PRO-301, WS-402, WS-1104.

-KPI Non-central Analysis template back-end calculations updated to address minor bug in select KPI calculations

-Improved navigation in the CMM Analysis Template within the question by question tab
